

1-2012

Hi Everybody!

Countdown begins to a new edition of **Formula Student Spain**, organized by the Sociedad de Técnicos de Automoción. Just 223 days to go!

It will take place in the mythic **Circuit de Catalunya**, in Montmeló, Barcelona, between Thursday, Sept., 6th and Sunday, Sept. 9th 2012.

This year we grow in number of **teams**, both combustion and electric cars, and over **900 participants** from **eight different countries**.

FSS is more than just four days of tests, workshops and cultural events. It's the result of team work, excellence, overcoming difficulties and the thrill to challenge our own limits.

Participants, organization and volunteers will walk this 7 months long path together, ending in four exciting and unforgettable days at the Mediterranean shores.

During this time, we will get to know better those who shall compete in Montmeló.

Some have already been with us in our first editions, while others will participate for the first time of this adventure.

Thank you all for participating and letting us be part of your dream.
